Made Possible by You

San Francisco, CA 94143-0248

UCSF Benioff Children’s Hospitals
Oakland | San Francisco
Each year, UCSF Benioff Children’s Hospitals treat thousands of young people—whatever their challenges, whatever their families’ means.

With the support of people like you, we can provide our patients with the uncompromising care they deserve. From critical care for the sickest babies to programs that keep vulnerable teens healthy, your generosity is helping us redefine what’s possible, each and every day.

Thank you for investing in UCSF Benioff Children’s Hospitals.

Your generosity helps us:

Reduce the stress of hospitalization for patients like Ron.

“There were so many Child Life services offered at no charge—from school to art therapy—that made life better for Ron. It’s the little things that matter most to kids and give them a sense of normalcy.”

Jessie
Ron’s mother

Provide specialized care for patients like Brooklyn.

“We credit our fantastic medical team for giving our baby back to us. Not only are they experts in the disease, but they were so caring. We are so lucky to have such an incredible resource close to home.”

Suzy and John
Brooklyn’s parents

Conduct research to save patients with rare conditions like Josh.

“We feel tremendously grateful to UCSF and have so much respect for those researchers. They never met my son, but they saved his life.”

Clark
Josh’s father

Ranked Among the Nation’s Best in Ten Specialties.
